## PROFESSIONAL SUMMARY

B.Tech CSE student specializing in Data Science and AI, passionate about building AI/ML and full-stack solutions to real-world problems. Strong foundation in programming, analytical thinking, and problem-solving, with a keen interest in learning emerging technologies and developing practical, scalable applications.

## EDUCATIONS

**SRM University, Delhi NCR** | Sonipat, India — 2024 - 2028
*B.Tech in Computer Science and Engineering (Data Science and Artificial Intelligence)* — *CGPA : 9.28/10*

**Delhi Public School** | Gwalior, India — 2023 - 2024
*Class XII (CBSE)*

**Delhi Public School** | Gwalior, India — 2021 - 2022
*Class X (CBSE)* — *Percentage : 95.3%*

## PROJECTS

**Jaldrishti** | Jaldrishti Demo — 2026 - Present
*AI-Powered Digital Intelligence for India's Traditional Water Heritage*
- Built an AI-assisted heritage conservation platform using computer vision and Indian Knowledge Systems (IKS).
- Enabled damage assessment and restoration planning through image analysis and 3D modelling.

***Technologies / Tools Used :*** *Python, OpenCV, YOLOv8-Seg*

**DRISHTI** | Drishti — 2026 - Present
*AI-Powered Real-Time Network Threat Intelligence Platform*
- Built an ML ensemble to detect cyber threats across **8.85M network flows**.
- Implemented dynamic feature extraction, risk scoring, explainable evidence graphs, and real-time human-in-the-loop alerts.

***Technologies / Tools Used :*** *Python, scikit-learn, XGBoost, LightGBM, CatBoost, Pandas, NumPy*

**BACK2U** | Back2u — 2026 - Present
*AI-Powered Multimodal Lost & Found Platform*
- Built image-text retrieval to identify the same physical lost item using instance-level re-identification.
- Developed multimodal reranking and uncertainty calibration, contributing to UI, APIs, and database architecture.

***Technologies / Tools Used :*** *PyTorch, DINOv2, Grounding DINO, SigLIP2, FAISS, FastAPI*

## SKILLS

| | |
|---|---|
| **Programming Languages :** | C, C++, Python, JavaScript, SQL |
| **AI/ML & Data Science :** | Artificial Intelligence, Machine Learning, PyTorch, TensorFlow, scikit-learn, NumPy, Pandas, Matplotlib |
| **Full-Stack Development :** | MERN Stack (MongoDB, Express.js, React.js, Node.js) |
| **Databases :** | SQL, MySQL, MongoDB, IBM Cloudant, PostgreSQL |
| **Core Concepts :** | Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Theory of Computation |
| **Tools & Platforms :** | Git, GitHub, VS Code, Antigravity, Postman, Docker, Vercel, Firebase, Google Cloud Platform (GCP), Tableau, Power BI, IBM Watson AI Services, CI/CD |

## AWARDS & ACHIEVEMENTS

- **Winner** – **Viksit Bharat Conclave 2026**, **1st Position** in Parampara to Prototype – Design Hackathon (SRM University Delhi-NCR, 8 Oct 2026) with Jaldrishti, team of 4 – Certificate
- **National-Level Finalist** – **IBM National Hackathon 2026** (IBM Expert Labs, Coimbatore, 12–13 Sep 2026): qualified as one of 8 campus finalists with DRISHTI, team of 4 – Certificate

## CERTIFICATIONS

- Tata GenAI Data Analytics Simulation (Forage), Oct 2026
- Deloitte Data Analytics Simulation (Forage), Jan 2026
- BCG X Data for Decision Makers Simulation (Forage), Jan 2026
- Introduction to AI (Simplilearn SkillUp), Jan 2026
- ServiceNow AI Foundation (FutureSkills Prime)
- GenAI & Prompt Engineering (AILytics × HackWithIndia) workshop
- Full-Stack Web Development, 1-week workshop
- SRM Builds 7.0, Verge 2026.

## EXTRA CURRICULAR

- Developers Team Member, Appirates (SRM): Contributing to student-led product development.
- Volunteer, Agentic AI/GenAI Bootcamp (SRM): Supported one-day technical event.
- Volunteer, Walk In with Zero Experience (SRM), Oct 2026: Supported hackathon preparation activities.
- Volunteer, From Campus to Global Careers (SRM): Assisted with career-event coordination.
- Data Structures & Algorithms, Apna College : In Progress
- Web Development, Apna College : In Progress
